Mississippi River Flooding

The Louisiana Sheriffs' Pension and Relief Fund Office Is Prepared

This notice is being published to advise all members of the Louisiana Sheriffs' Pension and Relief Fund that we have completed emergency preparations for possible flooding. The focus of our plan is continuous operations should we receive an evacuation order. As of this date, our plan has been activated and advanced preparations to be of service to our members with minimal disruption are in place.

Pension recipients will not experience any delays in the processing of June's benefit. However, if you receive a paper check and reside in any of the affected areas, it is possible the postal service will not be able to deliver your mail due to road closures and flooding. If you are concerned about delivery of your check, please complete a [Change of Address form](#) and submit to our office before May 31. If you are uncertain of a deliverable address, please call our office and request that we hold your check at our office for later delivery and/or provide us with other instructions. All pension recipients who use direct deposit, will have June's benefit deposited into their account on June 1.
